

pushTAN: Set up smartphone

www.sparkasse-kraichgau.de/online

If you forget your password for the S-pushTAN app, or if your access is blocked due to entering an incorrect password, or you have a new smartphone, you can set up the S-pushTAN app again in just a few steps and connect it to your online banking.

1 A) You have a new smartphone: Download the S-pushTAN app to your new smartphone.

B) Forgotten password: Call up the pushTAN app in the settings of your smartphone and select „App zurücksetzen“. If available, delete the app from your phone's memory or switch your phone off and on again.

2 Start the app and tap „Jetzt einrichten“ → „Registrierungsdaten anfordern“ → „Weiter“ → „Weiter“ to allow the delivery of push messages.

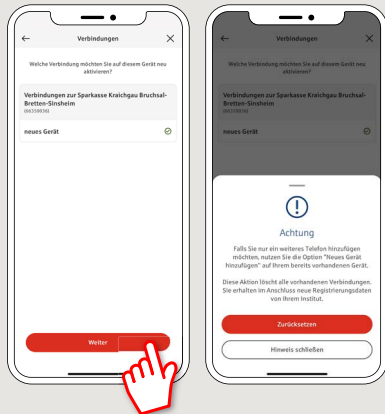

In the next step, enter a password for the app and confirm it by entering it again.

Then specify whether you want to open the app alternatively via TouchID or FaceID.

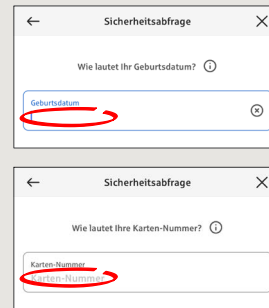

3 Choose your Sparkasse by entering its name or sort code (BLZ 66350036) and enter your access information for online banking.

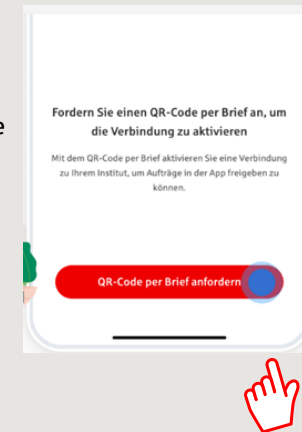

4 Select the device „neues Gerät“ as the new connection and click „Weiter“.

5 Now answer the security questions. The **card number** is **not** your account number! You will find the card number on your Sparkasse card (debit card).

6 Request QR code by letter to activate the connection

7 Done! Your push-TAN connection has been set up successfully!

DO YOU HAVE ANY FURTHER QUESTIONS? WE ARE HAPPY TO HELP YOU.

Central service number: You can contact us at 07251 77-0 on Mon-Fri from 8 a.m. to 7 p.m.
